PROFESSIONAL OVERVIEW

Computer Science student and Web Developer with hands-on experience building responsive web applications using React, TypeScript and modern frontend technologies. Experienced in professional software development, accessibility improvements and translating designs into functional user interfaces.

WORK EXPERIENCE

Software Developer Intern | Tractive GmbH, Linz Austria SEP 2024 – JAN 2025
GPS Tracking & Pet Technology · 100+ Employees

- Developed and implemented new webshop pages using Angular, TypeScript, Kotlin, Thymeleaf and CSS.
- Implemented new frontend features and optimized existing components to improve usability and maintainability.
- Contributed to the redesign and optimization of Tractive's eCommerce landing page.
- Documented European Accessibility Act (EAA) requirements and supported WCAG accessibility compliance initiatives.

Front End Developer | DutchArtCollections, Rotterdam, Netherlands DEC 2022 – JAN 2023
Web3 & Digital Art Company

- Developed a responsive landing page using React, Bootstrap and Tailwind CSS.
- Translated design requirements into mobile-first layouts compatible with desktop, tablet and mobile devices.
- Improved website performance and loading speed through frontend optimizations.

PROJECTS

Cavero Event Planner | github.com/Thom2503/project-c

- Collaborated in a development team to build a social event planning platform using React and PHP.
- Developed responsive frontend components and reusable UI elements using React and Tailwind CSS.
- Translated Figma designs into functional interfaces and integrated them with the PHP backend.

Portfolio Website | ymmij.dev | github.com/Jimmy-Tran/jimmytran-pf

- Designed and developed a personal portfolio website to showcase projects and professional experience.
- Built reusable, responsive components using React and modern CSS.
- Implemented interactive animations and visual effects to enhance the user experience.

SKILLS

Programming Languages: TypeScript, JavaScript, Python, C#, SQL
